Here's the set of requirements created for the BLRB let me know if the prioritization of these requirements seems good or should if any should be shifted around. The SRD gives an overview of all that we have talked about related to the software and the purpose for having it in the first place, be sure to let me know if there should be any additional requirements. Thanks.

Hey Ed, just sent you the completed Software Requirements Document and the requirements on a separate doc file to see prioritization. Let me know what you think there is additional info in the email.

Thanks, William. I'll take a look today and report back. Have a nice Easter Sunday (if you're celebrating). Best, Ed
Sunday 11:49 AM
Sounds good. Happy Easter!
Tuesday 8:59 AM
The documents all looked solid. Good work in my opinion. Let me know if you need anything specific from me. Nice Job!

Hey Ed, here's a direct link to the BLRB prototype you should be able to go through all the pages and click through some of the text fields. Let me know what you think. Additionally, if you could provide me with some basic legal questions about Boomi that don't break any rules, I will gladly place and update the last pages.

Looks good to me. By email, I'll send you a bunch of info on questions and answers you could consider adding to the draft. It's largely common info applicable to all companies like Boomi. For reasons we discussed, we can't add legally protected or confidential info specific to Dell or Boomi to the project — but please feel free to add any of the info I'm sending via email, if you think it's helpful.
